

As residents of our community, we value K-LOVE as the only radio station our family listens to. It would be a disservice to the community to lose this station as it is the only station that we feel comfortable allowing our children to listen to. Besides a classical music station, it is the only station which never has offensive language or inappropriate subject matter. It is in the public's best interest to keep the K-LOVE on the air and allow some encouraging music and talk to flow through the airways.
